Sidewalk Cost Sharing Replacement Application

Applicant Name: _____

Applicant Address: _____

City: _____ **State:** _____ **Zip:** _____ **Phone:** _____

Location of Sidewalks: _____

Date: _____

Square Feet of Sidewalk Replacement: _____

The Cost Sharing Sidewalk Replacement Program was established to help keep the Community sidewalks safe, in proper working order, and keep the Community revitalized.

The City of Waverly will reimburse property owners **up to 50% of the total cost** to replace poor quality public sidewalks within the right of way. \$10,000 is budgeted for this program annually.

Along with the application, the property owner will need to submit a minimum of two bids from insured contractors. The City will then select a bid in which they are willing to provide reimbursement for to the homeowner. The amount to be reimbursed may be less than 50% of total cost, if it is determined that the bids received are higher than fair market value; in this case, additional bids may be submitted by the applicant.

Once received, the Building Inspector will review the application and inspect the applicant's sidewalk for approval. If additional sidewalk applications are submitted after available funds are exceeded, the homeowner can re-apply for the program at the start of the next fiscal year (October 1). If additional applications are received prior to exceeding available funds, then the City will prioritize replacement based on sidewalk condition, with the worst sidewalks being replaced first (sidewalk condition to be determined by the City).

After the sidewalk replacement is complete, the owner will need to notify the City for final inspection. If inspection passes, a reimbursement check will be mailed to the applicant at the above address provided on this form.
